## More Scared Than Hurt.

A curious state of affairs was discovered in Amador City the latter part of last week, showing how smallpox, once dreaded as the scourge of human ills, has dwindled to a comparatively harmless complaint. The name of this disease carries terror nowadays, because of the memories conjured up from the past. But as a matter of fact, it is a trifling malady, highly contagious still, but robbed of its terrors. For some weeks, if not months, persons have been working in the mines of Amador with noticeable eruptive pimples. Children have attended the school with similar symptoms. Little was thought of the sores. They did not bother very seriously, and little or no fever accompanied the outbreak. At length inquiry was started in some way. District Attorney Vicini accompanied by Dr. Endicott went over there last Friday to look into matters. The doctor found two cases of smallpox well developed, and had them quarantined. It was found that others had suffered from the same disease, but were convalescent—by that we mean they had progressed beyond the period of danger from infection. There was no necessity to establish a quarantine in their case. They had passed through the whole seige of the disease, and did not know it, and attended to their daily affairs as though nothing was amiss. Smallpox is therefore chiefly dangerous from its very mildness. Persons contract it, get over it, mingle with their fellow men carrying the danger of contagion with them, and don't know it.

## How to Treat a Sprain

Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. 25 and 50 cents sizes for sale by Jackson Drug Store, Spagnoli, prop.

## The Baseball Season

The Jackson Social and Athletic Club has just closed the most successful baseball season ever held. Contrary to the general opinion, there was nothing in the games from the standpoint of the club's treasury. They actually went behind on the season's business, notwithstanding the heavy receipts sometimes taken in for admission at the gates. One of the best day's receipts was when the team from Sacramento came here. The receipts on that occasion amounted to \$72. This, however, was more than offset by the expenses. During the season the sum of \$1014.50 was received from the gate and other sources. With subscription of \$50 collected from the business houses, there was a balance of \$52, which was divided up among the eight players who had played throughout the season, \$4 being awarded to each player. This constitutes the munificent salary each one secured for his services in catering to the public amusement.

A specific for pain Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

## Phear's Express

Ring up Sam Phear for prompt delivery of trunks, baggage and express packages. Rates reasonable. Leave orders with P. L. Cassinelli, phone Main 35; and Express office, Main 34; residence Black 374.

## Montenegrius Object.

In the item last week about the stealing of the diamond pin from a house of ill fame by Chetko Pistinak we stated that the defendant was a Montenegrin. There are so many different nationalities in the Balkan regions of Europe, and so much jealousy existing, that it is necessary to be very precise in matters of this character. The Austrians did not want the offender to be classed as one of them. And now come the Montenegrius saying that the accused is not of their race, and take it as a reflection upon them that he should be so rated. In such a dilemma the newspaper is in a pretty fix. According to the protestants in this case the offender is a native of Herzegovina, which is a province adjoining Montenegro, and under the jurisdiction of Austria. We trust this explanation of the delicate question will be satisfactory to all parties.

## Mrs. Holtz Passes Away.

Mrs. Margaret Holtz, another pioneer lady of California, and for many years a resident of Amador county, passed away from earthly scenes at her residence on the Hamilton tract in this city on Monday last, after a brief illness. She was taken sick about a week before the end came, and only a few hours prior to life's close she was seized with a congestive chill which speedily terminated in death. The funeral was held on Wednesday, services were conducted at the deceased's late residence by the Rev. T. H. Nicholas, after which the remains were laid to rest in the protestant cemetery by the side of her husband, who preceded her to the grave many years ago.

Deceased was born in Holstein, Germany, November 12, 1832, and was 76 years and 4 days old at the date of her demise. Her maiden name was Wohlenberg. She came to California by way of the Isthmus of Panama in December, 1856, locating first at Knight's Ferry. Was married to Peter Holtz in Sonora, April 27, 1863, and thereafter moved to Amador county, settling on a tract of land three miles south of Jackson. Here was raised a family of seven children, all of whom, except one survives, namely, two daughters, Mrs. M. Berneich and Mrs. Geo. Kirkwood, and four sons—John, Peter, Oscar and Henry Holtz. Deceased was a woman of many ennobling traits of character, a devoted and affectionate mother and a kind neighbor and friend, honored and respected by all who knew her.

## Chinese Wedding.

A wedding in China in which a Jackson couple were the principals occurred last week. The groom was Charles You, 35 years of age, who has been cook at Ruge's restaurant for a long time. The bride is a mere child, Annie Lee, daughter of Mary Sing, formerly Mary Lee. She is but 15 years of age, and the affidavit of consent of the mother and also of William Wah Lee, a brother, were filed with the marriage license. The parties armed with the necessary warrant for any minister or magistrate to unite them in matrimony, bled away to Sutter Creek the same day, November 12, and were married. They will make their home in Jackson.

## A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by Ruhser's City Pharmacy.

## Stung by a Fly.

Bert Williams, a miner working at the Zeila mine, met with a singular experience during Tuesday night. He boarded at the Globe hotel, and retired to sleep at the usual hour Tuesday night, feeling as well as ever. When he woke up next morning his left eye was closed, and swollen to twice its normal size, and was exceedingly painful as well. He felt nothing unusual during the night. He had to call in the services of Dr. Endicott to prescribe for him. It is thought that a fly or other insect stung him. In fact, he says before going to sleep he heard an insect buzzing in the room. He has not been able to go to work since, and the eye is quite painful.

## A Hair's Breadth Escape

Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound syrup. Price 25c, 50c and \$1.00 per bottle. Sold by Ruhser's City Pharmacy.

## Election of Officers.

Encino Circle No. 617, Women of Woodcraft, elected officers for the ensuing term on Tuesday November 17, as follows:

Past guardian neighbor, Ellen Silva; guardian neighbor, Augusta Fleming; adviser, Eva Bastian; magician, Della Rague; attendant, Eileen Fleming; inner sentinel, Augusta Wrigglesworth; captain of guards, Lavena Palmer; musician, Christina Schacht; banker, Alice Batchelder; clerk, Fannie K. Heiser; manager, Virginia Hambro.

## What Would You Do?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar. For sale by Jackson Drug Store, Spagnoli, prop.

# THE RED FRONT JACKSON.

## A MONEY SAVING PROPOSITION

Our long business experience with the people of Amador county has taught us what we have now only too well accomplished. The results are that we are now showing the finest line merchandise at popular prices. It is money saving to you if you will look over our line of goods, and who wouldn't save money. Come and get your goods while assortment is complete, and selection large.

### Dry Goods.

Our dress goods line this season stands alone unequalled, it is the best line for the money ever shown in Jackson.

Fancy Mohairs in brown, navy, garnet, 36 inches wide, per yd. .65

Good heavy cashmere, white, sky blue and black, 36 inch, per yd. .65

Extra heavy serge, black, navy and brown, 38 inches, per yd. .65

We also have a very nice line of suit patterns, only one suit of a kind. Up-to-date goods only, 44 and 54 inches, \$1.25 and \$1.50 per yard.

### Kimona Goods.

A superb line of the finest designs, with and without border at popular prices.

### Ladies' Furnishings.

#### Waists.

A large assortment of ladies' fancy and tailored waists now on display; a few numbers in net waists, white and ecru which can't be beat at the low prices.

#### Wool Jackets.

A fine line of ladies' pure wool hand made jackets in coat style, in all colors at \$2.75 and \$3.50 each.

#### Underskirts.

Black sateen full sizes, a large complete line from 90 upward. Heatherbloom skirts, plain and embroidered bottoms at \$1.75 and \$2.50.

#### Gowns.

A large assortment of flannelette night gowns, plain white, blue, and pink and striped, from 50c to \$1.50.

#### Long and Short Kimonas.

Long and short Kimonas, a good assortment from 50c to \$1.75.

### Men's Clothing

Cravenetts! Cravenetts! Just the coat for the season, good protection from wind and rain—\$10 and \$12 each.

Our general line of men's clothing from \$10 to \$20; can not be beat for the price.

### SHOES.

For ladies' gents' and children. Our line of Phoenix shoes for men in all styles we can offer you safely, as we guarantee every pair of shoes that bears the name Phoenix. A new pair if it don't wear satisfactory.

Get your school shoes for children here where you get the best and cheaper than elsewhere.

## MINING NOTES.

Bunker Hill—This mine paid its twenty-fourth monthly dividend of three cents per share on the 15th instant. The underground works continue to look well, and the outlook for the continuance of the monthly dividend to stockholders is encouraging.

Defender—This property continues to run right along, with encouraging results. The mill is kept going on rock averaging in the neighborhood of \$8 to \$9 per ton, which should yield a fair margin of profits.

Kennedy's Laxative Cough Syrup not only heals irritation and allays inflammation, thereby stopping the cough, but it moves the bowels gently and in that way drives the cold from the system. Contains no opiates. It is pleasant to take, and children especially like the taste, so nearly like maple sugar. Sold by City Pharmacy, F. W. Ruhser, Prop.

## Notice.

Archdeacon G. Swan of Sacramento, will hold an evening service on Monday the 23d instant at 7:30 p. m. in St. Augustine's Episcopal church. The officers and members are specially requested to be present as business of importance will be transacted after the service.

## Benefitted by the Springs.

W. J. Nettle, foreman of the Argonaut mine, accompanied by Mrs. Nettle, returned home Sunday evening. Mr. Nettle spent several weeks at Byron Springs, taking the bath treatment for rheumatism. During the process of treatment—really the process of recovery—he felt very little improved. He did not have a very high opinion of the curative properties of the mud bath treatment while he was there. The attendants however told him that he would feel the effects after he left. When the treatment was completed they informed him that nothing further could be done in his case, and that it was useless for him to remain longer. Soon after leaving he commenced to feel better. On Monday—the day after reaching home—he went to the mine to survey around, and the following morning went to work, feeling almost as well as ever. He has been attending to his duties steadily ever since. He has a very high opinion of the curative virtues of Byron Springs in rheumatic afflictions.

## Church Notes.

### EPISCOPAL.

Regular services will be held in St. Augustine's Episcopal church as follows:

11 a. m.—First and third Sunday in each month.  
7:30 p. m.—Second and fourth Sunday in each month.

## FATHER GLEASON RETURNS.

The Rev. J. J. Gleason, the Catholic priest of Jackson, returned from his trip to his native land—Ireland—and other countries, on Thursday of last week, after an absence of six months. He reports that he enjoyed his trip thoroughly, and enjoyed the best of health during the whole time. He had not visited his native heath for eighteen years, and during that time many changes had taken place. He traveled through the length and breadth of Ireland, and noticed a decided change for the better in the condition of the peasantry of that country. Under the liberal policy of the British government adopted within the past few years the people are gradually getting to own their holdings. The government advances money for the purchase, which they are required to pay back in annual instalments. Their homes are taking on a more comfortable appearance, and the farmer class are becoming contented. Father Gleason traveled through Scotland and England. He then passed over to the continent, through Paris, and the country districts of France, also Switzerland, Germany and Italy. He left Queens-town for New York on his return voyage on the 4th of October. Reaching America, he tarried at various points on his way home, spending a few days at Chicago, Des Moines—where he has a brother in the priesthood—also at Denver, Salt Lake, Los Angeles, Fresno and other places.

## Card of Thanks.

The undersigned, in behalf of himself and all other members of the bereaved family, hereby tenders sincere thanks to all kind friends who rendered assistance in any way during the last illness and funeral obsequies of his beloved mother, Mrs. Margaret Holtz.

Peter Holtz.

## Death of a Former Jackson Resident

C. G. Heiser, an official of the local lodge of Woodmen of the World, received a dispatch yesterday afternoon from Thermalito, Butte county, announcing the death at that place that morning of George McMillan, a member of the Jackson lodge. No previous notice of his sickness had been given and it is thought that his death was sudden and unexpected. Deceased was for several years a photographer in Jackson. Shortly after his gallery in the Kay building was burned out about three years ago, he sold his outfit and business to J. D. Palmer and thereafter he and his wife moved to the vicinity of Oroville, where they engaged in the fruit business. The notification to local lodge was to enable the relatives to draw the funeral expenses. Deceased was 51 years of age.

## BEAT THE BAND

Some weeks ago George Krause was secured as instructor of the band in Jackson. He came from Sacramento, and was fairly well up in his profession. As the sequel shows, he was an expert in other ways besides music. He took the precaution to collect for his services in advance. He took no chances with country jakes, preferring that they should take all the chances on him. And they did so to their sorrow. If all reports are true he was a pretty good borrower. The middle of last week he quietly shook the dust of Jackson from his feet, walking to Martells, there took the train for parts unknown. A board bill at the Louvre restaurant to the amount of \$8 was left unpaid, besides the band boys' loss of music lessons paid for. A warrant was issued out of the recorder's court for his arrest. It is reported that he was detained at Galt, but somehow managed to give the officers the slip.

## Benevolent Orders on the Boom.

The cry of dull times seems to have little effect upon the secret societies. The last week has witnessed a boom in membership the like of which has perhaps never before been witnessed in any town in the county. Last Wednesday evening Excelesior Parlor N. S. G. W. of Jackson, and Orofino Circle Companions of the Forest held initiation exercises, the first named in Odd Fellows hall, and the Circle in Masonic hall. The Native Sons initiated 43 members, and the circle 31 members. The latter lodge has hit upon the plan of increasing the membership by offering a prize to the one securing the largest number of recruits. At the Native Sons initiation the grand president, C. M. Belshaw, was present, besides a number of visiting members from San Andreas, Lone, Sutter Creek and other points. A bountiful spread was partaken of in each case after the official exercises.

## For a Boarding House.

Sam Savich, who has been keeping a boarding house on Broadway, in the Belluomini house, north of the Chicago hotel, has purchased the property of S. G. Spagnoli on Water and Court streets. The price paid, we are informed, was \$2000. There are two houses on the lot. It is reported that Savich has bought the property for the purpose of a boarding house—that he will transfer his business to the new location.

## Consumption Statistics

Prove that a neglected cold or cough puts the lungs in so bad a condition that consumption germs find a fertile field for fastening on one. Stop the cough just as soon as it appears with Ballard's Horehound Syrup. Soothes the torn and inflamed tissues and makes you well again. Sold by Ruhser's City Pharmacy.

## EXTENDING FOREST RESERVES.

The forest service is contemplating enlarging the forest reserve extending from Plumas county on the north to the vicinity of Placerville on the South. It is proposed to add something like 700,000 acres to the already vast area included within the boundaries of the present reserve. Congressman Englebright, ever alert where the interests of his district are involved, has taken prompt action, and has succeeded in having the matter suspended until the feasibility and desirability of proposed increased area can be thoroughly investigated. While there can be no question about the wisdom of the government policy of conserving the natural forests by the judicious selection of suitable tracts of forest lands as reserves, it is thought by many that the scheme is liable to be overdone, to the prejudice of homeseekers and mineral prospectors. It is said that a large portion of the acreage proposed to be added to the reserve in question consists of land adapted for fruit raising, and the withdrawal of such a vast tract from settlement would work against the settling up of the land by homeseekers. Undoubtedly the question will be properly sifted in all its phases, and in the outcome will be shorn of its detrimental features.

In the creation of the forest reserves the government has done, and is still doing, a great work for the future of the nation. It is an entirely erroneous idea that a forest reserve absolutely withdraws such timber lands from contributing in any degree to the demands of the lumber industry. On the contrary, timber is permitted to be cut on these reserves under strict government supervision. Fallen timber is sold, also a judicious thinning out of the standing timber, and the cutting of all dead trees is permitted. The timber is sold for commercial purposes at a fair price. In this way the forest is protected, while the lumber industry is benefitted rather than injured. Waste is eliminated as much as possible. By this system the timber supply may be perpetuated indefinitely, whereas by the wasteful methods resorted to in the past the forests would disappear within the next generation.

## THE SHOOTING OF HENEY.

The attempted assassination of Francis J. Heney, the principal prosecutor in the San Francisco graft cases, is a most deplorable event. It will be universally regretted, no matter how the devious ways of the prosecution are regarded by the individual. Those who take issue with the great prosecutor in his method of letting the arch grafting officials off in the doubtful scheme of gathering the so-called "higher-ups," into the criminal drag-net, will be among the sincerest in denouncing this latest outrage. Heney was shot down in Judge Lawlor's court room during a recess in the trial of Abe Ruef for alleged bribery of one of the boodling supervisors in connection with the granting of the trolley franchise to the United Railroads. The would-be slayer was Morris Haas, and the motive for the crime was revenge. Haas was called as a juror in a previous Ruef trial. In the course of his examination Heney drew out the fact that Haas, twenty years before, had served a term in state prison for embezzlement, and exhibited his picture in convict garb in the court room. This, he claims, wrecked his life, and blackened his family. In desperation he sought the life of the man who dragged this skeleton into daylight after its twenty years' sleep. The bullet entered Heney's temple, and lodged on the opposite side near the jaw. The wound is a grave one, but in the opinion of his physicians he will recover in a few weeks, without any impairment of his mental or physical powers. Haas committed suicide in his prison cell by means of a small pistol which he had concealed in his shoe, and which the jail authorities had overlooked when they searched him. These events have caused intense excitement not only in San Francisco but throughout the state. They have added greatly to the complications of the graft trials, but no doubt the case against Ruef now on trial will be pressed to a conclusion with other attorneys representing the prosecution.

## FLY CATCHES.

Harry Bemis says that good catchers are becoming scarce year by year and that in a short time receivers will be able to dictate their salaries.

Pitcher Raymond of the St. Louis Nationals lives in Chicago, and whenever he pitches a million, more or less, of his relatives turn out to see him work.

Outfielder Schweitzer, the St. Louis American league club's Ohio-Pennsylvania recruit, looks like a find. He has speed, pepper and ability, bats well and, what's more, is a sober, steady going youth.

Dartmouth's big south paw, Percy Skillin, who was a sensation last year, was not so successful this spring. He is said to be engaged to the Chicago Nationals for service when his college term ends.

Pitcher Karger of St. Louis can be sold for a swell sum to seven National league clubs and would bring as much or more from American league magnates, but the waiver system practically makes him ineligible for membership on a San Johnson team.

## Tales They Tell.

In a severe electrical storm, at Ewan, N. J., in which there was no thunder, a barn was smashed and several trees were struck by lightning.

A rooster, the property of William Spangler of Red Lion, Pa., smashed two panes of thick glass in fighting his reflection and nearly bled to death from the wounds made by the glass.

Mrs. Ezra Noel of Penacook, N. H., has a White Wyandotte hen that lays an average of one egg a week that measures 8 1/4 by 5 1/4 inches and weighs five pounds. These eggs always have a double yolk.

Charles Hauffman, a mail collector in St. Louis, found a new gold watch in a street mail box with a note attached asking that it be sold and the money applied to charity, as the watch had been stolen.

Two hundred dollars in bills hanging out on a clothesline was a novel sight in Woodbury, Conn., recently. A green servant had placed the money on the line when its owner, William Wilhelm, had come home drenched to the skin.

## Facts From France.

The French automobile business is declining.

Paris has a shop devoted solely to the sale of the hair of celebrities, every lock being guaranteed.

Glass curtains are in use at the Palais Royal, Paris. They consist of a series of little squares of colored glass, each set in a small zinc frame, and have the effect when closed of stained glass.

The new French law restricting the use of names for wines to the regions where they are raised is being most strictly enforced. It is not allowed dealers, for instance, to use names like "Fantaisie Champagne" and "Saurmur Champagne" unless such wine is actually produced in the champagne region.

## English Etchings.

The houses of England if placed in a line would reach 27,000 miles.

The average cost of maintaining a prisoner in a British jail is about \$125 a year.

The first English three decker battleship was the Sovereign of the Seas, built in the time of Charles I.

London had this year the pleasantest June within the memory of the oldest inhabitant. There was but one sunless day, and in the month the sun shone 245 hours and for a third of the month from ten to fourteen hours a day.

## New York City.

New York city has an average of 1,500,000 visitors each week.

New York city has 133 department stores that employ 11,000 persons.

Nearly one-third of the immigrants who arrive in the port of New York never go beyond the city for a home.

It takes about 2,000,000 cords of wood a year to make the newspapers that go through the presses of New York city.

Courts are a great expense to New York city. The jurors alone last year cost \$415,168. The year before the cost was \$321,293.—New York Herald.

## A Hundred Years Ago—

There were no fountain pens. There were no cartoons in the daily papers.

We had no tan shoes except those made of tanbark.

There wasn't any appreciable outgo of American heliesses.

We had no parlor matches except when a youth and a maid struck each other's fancy.

Steamboats had just been put in use, but the trip up the Mississippi river from New Orleans to St. Louis required about three months.—St. Louis Republic.

## Pith and Point.

Boast of a thing and it will fall you. If it hadn't been for the gossips there would have been no history.

To want your own way is a very bad habit, for you will never get it.

A man isn't making money unless he is kept too busy at work to spend any. We are all outwardly more cheerful about giving than we feel inside.

It is the disposition of most people when they get any one's friendship to draw on it at sight.—Athol Globe.

Has on hand a full line of Harness and Harless Fixtures, Saddles, Bridles and Robes. Buggies and Carriage tops made to order.

Also has on hand a line of that well known and thoroughly tried BAKER & HAMILTON buggies.

## Amador County Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

**Climate.**—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

**Gold Mining.**—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers to anyone of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or alabaster undeveloped.

**Agricultural Capabilities.**—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive; also all kinds of vegetables are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for many times the quantity now raised of these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 2000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Dryden, Plymouth, Volcano, Pine Grove and Oleta. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law-abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

The assessment roll for 1907 is \$5,000,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—is located four miles from Jackson.

## ITEMS WORTHY OF PERUSAL

It is said that the lumber cut in Maine to the east and north of Bangor will be considerably reduced from the normal this winter. Leading operators have estimated a cut from 25 to 35 per cent below that of any of the last few seasons.

According to figures presented to the Institute of Electrical Engineers, the net saving over steam by the use of electricity on the railroads of the United States averages \$638 per mile, which, if applied to the entire railroad system, would effect a saving of \$138,500,000 per annum.

It is estimated that more than 55,000,000,000 cigarettes were smoked last year in the United States.

Men have agreed to paint the inside of the First Congregational church at West Torrington, Conn., if the women who are not cooking will sing hymns for them and furnish a good dinner.

Transportation facilities are more inadequate today than at any time in New York's history. The first omnibuses, put in the streets in 1830, came nearer to accommodating the traveling public of those days than the great network of railways does now, for the demand for transportation continually keeps ahead of the facilities provided.

After 25 years of operation of the postal savings bank of India the depositors number 1,190,220 and the deposits amount to \$49,223,283.

Among the latest horticultural products exhibited in England is a rose so dark to be almost black. Many gardeners are eagerly trying to get a blue rose; success in this line means a fortune.

The beet sugar industry is growing in this country. Sixteen of the states have factories for the manufacture of the product, with a total of 64 such plants in the United States.

At Shamokin, Pa., five prominent women, unnamed, broke into a poker establishment, several surprising their husbands.

Every piece of plate glass in the world today is due to be broken within ten years, according to the law of average.

The greater portion of the telegraph and telephone poles of this country come from the northern peninsula of Michigan.

In a recently built Italian steamship there is a special cabin with a dental outfit. A dentist will be carried in the vessel.

State laws require the American flag to fly over schoolhouses during school hours in California, Oregon and Kansas.

A hen attains her best laying capacity her third year. She will lay in an average lifetime from 300 to 500 eggs.

An elephant's burden is from 1,800 to 2,500 pounds, and that of a horse from 200 to 250 pounds.

The first English regatta took place upon the Thames, between London bridge and Millbank, on Friday, June 23, 1775.

The clock at St. Chad's Shrewsbury, has a record pendulum, its length being two feet and the weight of the ball 200 pounds.

In all the civilized countries of the world 60 per cent of the persons over 10 years of age have to work for their living.

Mrs. Elizabeth Lehman of Mount Joy, Pa., aged, 104, took her first ride the other day in a trolley car and an auto.

The average life of a ship is about twenty-six years.

A race horse galloping at full speed clears 20 feet to 24 feet every bound.

Every shilling turned out by the English Mint shows a profit of nearly threepence.

Breathing exercises were introduced in some Parisian schools not long ago, and beneficial results were soon manifested.

The population of Canada is now about 6,500,000.

In Belgium a revenue of \$65,000 is derived from roadside fruit trees.

In the matter of paper production New York, Maine and Wisconsin rank first, second and third, respectively.

A two-mile railroad bridge has been recently completed across the Columbia river in the state of Washington.

Women are barred from the island of Ferdinand de Noronha, belonging to Brazil. It is reserved for convicts.

The oldest national flag in the world is that of Denmark, which has been in use since the year 1219.

Out of every million letters that pass through the postoffice it is calculated that only one goes astray.

The state of North Carolina is one of the most notable in the Union for the production of gems, particularly diamonds, emeralds, rubies, aquamarines, beryls, hiddenite, rhodolite, amethysts and remarkable rock crystals. These gems have been found mainly in the course of mining operations, although few systematic searches for them have been made and two companies are now engaged exclusively in such work.

## BRYAN-ON-THE-RHYME.

The democratic candidate, at Lincoln, lay in bed, With his nervous system shattered and a bandage 'round his head. And his friend Mack stood beside him as returns came o'er the wire, And endeavored to enthrone him with his old-time zeal and fire. But poor Bryan whispered feebly as Mack held his trembling hand: "I am once again snowed under! Gee, 'tis more than I can stand!"

Bear a message to the public—say defeat I bravely bore, But I'm going up Salt River to remain for four years more.

"Say to Haskell that his action lost me many an honest vote, That those horrid Archbold letters were the knives that cut my throat. Send my love to Hearst and tell him that I bear him no ill-will, Though to lose in this election is indeed a bitter pill."

Under ordinary rulings I should have it in for him, But in spite of all his wallops I'll again be in the swim;

But it will not be this season, for the campaign now is o'er, And I'm going up Salt River to remain for four years more.

"There's another—not a democrat—of whom I shall beware—'Tis the strenuous incumbent sitting in the White House chair."

"I was an error when I tackled Teddy Roosevelt, for I see That the broadsides which he fired did not serve to favor me."

Yes, he kicked the props from under every plank I'd advocate In the letters he indited, and that helped to seal my fate.

Now his friend Taft is elected, and it makes me mighty sore, But I'm going up Salt River to remain for four years more."

His voice grew faint and husky, and his grasp was childish, weak, And as Mack bent down to cheer him, Willie sighed and ceased to speak.

The democratic chairman strove to fan the spark of life, But the peerless one had succumbed for the third time in the strife.

And the soft moon rose up slowly over Fairview's acres grand, Where the many-sided Bryan was a zero in the land,

As a craft put out from Lincoln for a dim and distant shore, Taking Bryan up Salt River, where he'll stay for four years more.

—E. A. Briminstool in Los Angeles Express.

## Sick Headache

This distressing disease results from a disordered condition of the stomach, and can be cured by taking Chamberlain's Stomach and Liver Tablets. Get a free sample at Spagnoli's drug store and try it. Jackson Drug Store, Spagnoli, prop.

## Clever Crabs

The tree crab of the South Sea islands is akin to the hermit crab but it is larger and it has its hind quarters sheathed in a shell. It is also known as the palm crab because it climbs the coconut palm and picks the fruit, which it nips off close to the stem. It always takes care to choose a palm tree with plenty of stones at the foot, so that the coconut may be broken by the fall. When the native see that a crab is in a tree they tie a ruff of grass around the trunk. When he comes down again he is upset by the grass and falls heavily to the ground where he is stunned. He is then killed with a stone ax.

## "The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood thereby curing pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

## Humor and Philosophy

By DUNCAN M. SMITH

## PERT PARAGRAPHS.

Being polite might help some, and it wouldn't hurt others.

It only proves your wisdom to be occasionally foolish.

It is one thing to talk to a girl and another to speak to her father.

If worry were removed from our midst, the occupation of a whole lot of people would be gone.

The woman who signs her letters "ever the same" either has no sense of humor or deals largely in irony.

A quarrelsome man's worst point is he makes his friends feel so self righteous.

A sweet disposition is very charming and desirable, but it takes a strong kick to get results.

The summer resort grin is quite as exorcising in every particular as the automobile face.

If one's salary were as elastic as one's desires, there would be something doing on the spot.

## The Garden Variety.

To write a cheer up poem. You take your ready pen, Likewise a piece of paper, And sit down in your den; Then let the pencil wander Across the dainty sheet, And in about a minute The thing will be complete.

Cheer up, cheer up, cheer up, cheer up, Cheer up is what to say; Cheer up, cheer up, cheer up, cheer up, And all the while be gay, And never frown, though you are down.

Or blind or halt or lame, Cheer up, cheer up, cheer up, cheer up; The price is just the same.

No need to waste gray matter In writing rhymes like that. Just set the pen in motion And on the job stand pat.

Make bold to call your bluff, And if you should grow drowsy Proceed to take a nap.

For when your sleep is ended The cheer will be on tap.

If that is not enough, Cheer up some more should any one Make bold to call your bluff.

Cheer up and down and sideways And pass the thing along, Then sell it to the sucker Who buys that kind of song.

## Didn't Want the Trimmings.

"I wish I had \$5." "Can't you borrow it from your rich old uncle?" "I suppose I could, but he would insist on throwing in \$1 worth of advice for good measure that I am not needing."

Getting Back at Her. "My dear," said Mr. Teaser to his adorable wife, "we had an invitation today to attend the governor's reception."

"How perfectly lovely! I suppose you accepted?" "No, I turned the invitation down. I knew you had nothing to wear."

Different Brand. "You say he is a lawyer?" "Well, not in active practice. He is what they call a consulting attorney."

"That must be different from the one who was cross questioning me."

"What kind was he?" "I don't know exactly. An insulting attorney, I think."

Not a Wire. "My wife sent me a message by wireless."

"Isn't that expensive?" "Oh, no."

"I supposed it would be."

"Depends on the method. She used a two cent stamp."

Circumstantial Evidence. "Do you think Gilkins is a square fellow?"

"He must be. I know three men who traded horses with him, and he is still on speaking terms with all of them."

Scented Danger. "Jobson is waiting around trying to tell us a fish story."

"Why doesn't he tell it to the marines?"

"Man, they are equipped with guns."

Sure. "Wouldn't that jar you?"

"What?"

"Shooting the chutes."

## THE LONDON LANDLORD.

He is a Tyrant, and His Tenant is a Sort of Slave.

According to Sydney Brooks, London correspondent for Harper's Weekly, New Yorkers who live in rented flats or houses are enjoying a condition of paradise compared with the lot of the London tenant.

The British landlord, he complains, is a tyrant, and the long lease system is the basis of his tyranny. The system of twelve months' leases that obtains in New York is the Magna Carta of the tenant. It has done infinitely more for American happiness than either the Declaration of Independence or the divorce laws. It makes landlords compliant and confers upon the tenant a status of something very like equality.

To be able to take a house or a flat for a year, with the option of renewal at the same rent—a rent that in houses includes all decorations and repairs and in flats includes steam heat, electric light and a perpetual supply of hot water—is to be a free man.

What London landlords are apparently on the lookout for is a slave, and a slave who, besides being a millionaire, will outlive Methuselah. Virtually it is nothing more than the skeleton framework of a home that he hands over to you for twenty-one years. The tenant does the rest.

If he wishes to add a new window or to put in the electric light it must be done at his own expense. You are to imagine a procession of tenants passing through every London house, each one of them laying out money on some pet improvement of his own, this one adding a billiard room, that one concentrating on a gas cooking range, a third lavishing parquet flooring upon the drawing room, a fourth bringing the bathroom up to date, a fifth installing a heating system, and so on. And every one of these additions becomes in the end the landlord's property.

## Eleven Years.

It is eleven years since the intrepid Andree sailed away into the mysterious regions of the frozen north. The fate of him and of his balloon remains a mystery which probably will never be solved. In his day, so recent as it was, aeronautics was in its infancy. Now, with airships that can remain aloft for twelve hours, the feat he attempted is nearer possibility. One message came from him after starting, brought by a carrier pigeon to the whaler Aiken. It ran thus:

July 12, 12:30 o'clock noon, lat. 82 degrees 2 minutes, long. 15 degrees 5 minutes east. Good speed eastward, 10 degrees to south. All well on board. This is the third pigeon post.

The envelope was of parchment saturated with paraffin and was made fast by threads to a tail feather of the pigeon.—Pall Mall Gazette.

## Long Winded Statesmen.

Soon anybody who wants to follow politics intelligently will have to go in the flesh to every important meeting. Read the speeches now he cannot. This speech of Mr. Balfour to the Parents' league is one of the most important any public man has made for years. Yet the Times does not report it in full. "Mr. Balfour, after giving a resume of his previous points, said"—Thus the subeditor suppresses Mr. Balfour's words as superfluous. It really is too much that even Mr. Balfour must be bedeviled by subeditors. Who wants their view of the relative importance of Mr. Balfour or any other first rate man's sentences? But Mr. Balfour is cut down now to make room for a debutante's gown or a bride's fine linen.—London Saturday Review.

## The Next Census.

It will require an army of 70,000 people to take the thirteenth census in 1910. The task of making the enumeration of the 90,000,000 people in the United States, Alaska, Hawaii and Porto Rico and in Guam, Samoa and the Panama canal zone will be one of enormous proportions. It will be the most gigantic work of enumeration that has ever been attempted in this or any other country, and it is intended to reach the acme of correctness and thoroughness. Not merely a count and compilation concerning the population alone, it will include a census of agriculture, manufacture, mines and quarries.—Philadelphia Telegram.

## England's Premier Peer.

The birth recently of a son and heir to the Duke of Norfolk was treated in England as an event of almost national importance. The Duke of Norfolk is a man of mark in many ways. He is the most important lay member of the Roman church in Great Britain and acts to all intents and purposes when occasion arises as British ambassador to the Vatican. He is also the premier peer of Great Britain, and the birth of a son insures the continuance in the direct male line of the ancient family of Howard, which stands next to the blood royal at the head of the English peerage and traces its decent back to Saxon times.—Argonaut.

## The Dangerous House Fly.

Flies cause in New York City alone about 650 deaths from typhoid fever and about 7,000 deaths yearly from other diseases. Last year a fly was captured on South street, in New York (not far from one of the city's biggest meat and fish markets), that was found to be carrying in its mouth and on its legs more than 100,000 disease bacteria. Flies walk over decaying and fetid matter, for which they have a natural affinity, and then, entering meat markets and homes, travel over the food, explore the milk picher and also light directly on the skin of the householders.—Success Magazine.

## CASTORIA

For Infants and Children.  
The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Fletcher*

## FROM OUR CORRESPONDENTS

### Correspondents Wanted

We want a regular correspondent in Amador, Drytown, Plymouth and Volcano. We will send a daily paper free, also stationery supplies and stamps to any one who will act as correspondent in each of the above places. Let us hear from you. We want the news.

### OLETA.

Nov. 16—The clouds still continue to pass over without bringing the much needed rain, which we would all be glad to see come.

Elvin Shear met with a painful accident the first part of last week while driving the team of I. P. Ostrom. In some way the loaded wagon ran over one of his ankles, giving it a terrible bruise, although he is doing nicely at present.

Mrs Geo. Schroeder has gone to Sacramento, on a visit of a week with friends.

Joe Schilling was a visitor here this week. All are glad to see Joe back again.

Henry Brown of Stony Creek, was a visitor at H. Bradigan's a few days this week.

E. Shear paid Jackson a flying visit last Tuesday.

John Bradigan paid D. Brown's folks of Stony Creek, a visit this week.

J. E. Hutchinson, the dentist was here last week. He seems to be kept quite busy while here, as his coming is greatly appreciated by all.

Pansy.

### IONE.

Nov. 19—Institute being in session this week all the school children in this vicinity are enjoying a week's vacation.

Mrs Ed. Farnsworth of Stockton, is visiting her sister, Mrs Lewis Mooney, for a few weeks.

T. H. Gartlin spent a few days the last of the week, visiting his daughters in Sacramento.

Miss Ella Burbank, is spending her vacation visiting friends in Oakdale.

Mrs J. M. Amick went to Stockton Tuesday, where she will remain until the close of the week.

The high school pupils are to have their annual rally on the high school campus tomorrow night. Everybody is invited to be present.

Miss Margaret McDonald is visiting relatives and friends in Jackson this week.

Mrs J. Asbury and daughter, Myrtle, who have been visiting in Sacramento, returned home Tuesday.

Miss Lena Gartlin spent a few days last week visiting in Stockton and Sacramento.

Ioneite.

### JACKSON VALLEY.

Nov. 19—Mrs R. E. Luttrell, who has been visiting her sister, Mrs A. C. Miner, returned to her home at Pine Grove Thursday.

Joe Kidd made a business trip to Jackson Tuesday.

Mrs L. and Mrs E. T. Bamert of Julian district, spent one day last week with relatives in the valley.

Mrs T. Shelbourn celebrated her ninety-second birthday on Tuesday Nov. 10th.

W. Prouty took our teacher, Miss Blanche Beatie, to Jackson Tuesday, where she will attend the institute.

A. C. Miner made a business trip to Lockford Sunday, taking his little daughter Vivienne with him, she remaining there for a visit with her aunt, Mrs O. Corral.

Mrs N. Foster and son, Joe, spent one day of last week with Mr and Mrs J. Kidd.

H. D. Ranlett left Monday morning for San Francisco, on a business trip.

Mrs Clara Dufrene and two daughters, Florence and Nellie, with Mrs Joe Dufrene and daughter, Gertrude, left Tuesday morning for a visit with relatives in Stockton.

Mrs Cora Miner and sister, Mrs R. Luttrell, spent Monday with their brother, Mr Emerson, near Galt.

S. W. Kidd had the misfortune to lose a young horse that he had just had broken for a saddle horse.

Miss Almira Berris left Sunday for Chico, where she will visit her aunt, Mrs J. G. Murphy.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co; doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Frank J. Cheney.

Sworn to before me and subscribed in my presence, this 6th day of December A. D. 1886.

A. W. Gleason.  
Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system.

Send for testimonials free.  
F. J. Cheney & Co; Toledo, Ohio.  
Sold by all druggists, 75 cents.  
Take Hall's Family Pills for constipation.

### SUTTER CREEK.

Nov. 19—The remains of Frank Wildman, who died in Auburn about two years ago, son of the late William and Mrs Julia Wildman, and brother of Mrs William McGee, arrived here this evening, and was interred in the Protestant cemetery in the family plot.

Mrs Lucot is seriously ill at her home on Sutter hill.

Judge Tucker of Selma, Fresno county, arrived here Sunday evening, he is a brother of William Tucker of this place, and Mrs Allen Tibbitts, who is so seriously ill.

W. L. Rose left Wednesday morning for San Francisco on business interests.

Lindsay Lathlean, who has been in Tonopah for a year or more, arrived here Sunday evening for a visit with the home folks.

James E. Davis of Amador City, and Miss Lizzie Parrow of this town, were quietly married in Sacramento on Saturday the 14th instant. They returned to Sutter Creek Monday evening, and left for Amador City Wednesday morning, where they will reside for the present.

William Rows of Sutter Creek, and Miss Nellie Jones of Amador City, were married last Saturday morning at the residence of the bride's father at Amador city. Shortly after the ceremony Mr and Mrs Rows left for Latrobe, taking the train for Sacramento, where they will spend the honeymoon. Upon their return the couple will reside in Amador City.

Mrs Frank Johnson accompanied by Miss Edith Daneri, left Sunday morning for San Francisco, for a two weeks' visit with relatives and friends.

An accident occurred at the Central Europa mine Wednesday afternoon about five o'clock, which fortunately was not a serious one. Engineer Benson was hoisting waste, when little above the 1200 the rope broke, the skip falling about 100 feet, where it jammed between the timbers, after smashing the center brace and timbers in its way. The men, three of them, working below got out by an other exit, and are congratulating themselves that they were able to get out, as it was a narrow escape.

Mrs B. Corotto, an old and esteemed resident of Sutter Creek, died in Stockton last Monday night, after an illness of short duration caused from a paralytic stroke. Mrs Corotto had gone to Stockton a few days previous to visit her son, and was taken suddenly ill soon after her arrival there. Her daughter, Mrs Ed. Allen, and husband were with her when the end came. Mrs Corotto was about 60 years of age, a native of Italy, and has resided in Sutter Creek for many years, leaving many friends to deplore her sudden demise. Besides her husband she leaves three married daughters and two sons, who have the sympathy of the community in their great sorrow. The remains arrived here Wednesday evening, and funeral services were held in the Catholic church this morning. Interment in the Catholic cemetery.

Another old resident of Sutter Creek, James Green, passed quietly into the land of silence last Monday morning, after an illness of several months, just failing day after day from general debility and old age. Mr Green was 80 years of age, a native of Ireland, but has been a resident of this place for a great many years, and highly respected by all who knew him. The funeral services were held in the Catholic church Wednesday morning. The deceased leaves an aged widow, two daughters and a son to mourn.

Miss Norma Werner is able to be out again, after being quarantined for a short time with diphtheria.

Dr. Newton of San Francisco, arrived here Saturday evening, making his annual trip here, to visit his patient, Miss Carrie Radditz. The doctor returned to his home Monday.

S. N. Knight went to the bay cities last Sunday for a few days stay, in regard to business interests.

W. Parsons and Mr Copsich of Jackson, were in Sutter Wednesday evening and attended the encampment I. O. O. F.

Mrs Reeves and Mrs Dr. Lynch of Amador City, attended the order of O. E. S. here last Saturday evening.

Mrs Chas. Mitchell, who has been visiting her daughter, Mrs L. Oettinger, for several weeks, returned to her home in Martinez last Friday.

Sutterite.

**Bromide Enlargements at Logan's.**

Why not have a Bromide Enlargement made of your favorite "photo"? Logan, the busiest photographer in Stockton, has the best equipped plant in California for doing this work.

These Bromide Enlargements are 16x20 inches—life size—and will stand just as close inspection as the original photograph. They are mechanically and artistically perfect and will please you in every respect. Price \$5.00 each. Call on Logan, 15 S San Joaquin street, Stockton, the next time you are in town.

Dr. J. D. Fogarty, dentist, Jackson. Office in Kay's building, Main street. Hours from 9 a. m. till 5 p. m. Telephone, Black 363.

## Eat What

You want of the food you need  
Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

### Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us.

The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

### BORN.

**CHUKOVICH**—In Jackson, November 17, 1908, to the wife of Mike Chukovich, a daughter.

**RATTO**—In Mokelumne Hill, November 15, 1908, to the wife of Louis Ratto, a daughter.

**BRIGNOLE-PAGAN**—In Sutter Creek, November 6, 1908, John Brignole to Miss Eva Pagan, both of Sutter Creek.

### DIED.

**Holtz**—In Jackson, November 16, 1908, Mrs Margaret Holtz, a native of Holstein, Germany, aged 76 years and 4 days.

**McMILLAN**—At Thermalita, Butte county, November 19, 1908, George McMillan, aged 51 years.

## Notice to Contractors.

Pursuant to law and to a resolution of the Board of Trustees of the city of Jackson, California, adopted November 12, 1908, directing this notice, the undersigned invites and will receive at his office in said city of Jackson, up to 7:30 p. m., of December 3, 1908, sealed proposals or bids for the following supplies to be used in the streets of said city to wit:

140 feet of 24 inch standard sewer pipe  
200 feet of 12 inch standard sewer pipe  
30 feet of 16 inch standard sewer pipe

All pipe to be according to specifications in my office copies of which may be had on application to the undersigned. Pipe to be delivered F. O. B., Martell, Amador county, California.

C. M. KELLEY, City Clerk  
Dated, Jackson, Cal., Nov. 13, 1908.

Notice for Publication.—No. 0609.

Department of the Interior,  
U. S. Land Office at Sacramento, Cal.,  
Oct. 19, 1908.

Notice is hereby given that Frank E. Blakeley, one of the heirs of, and for the heirs of Martha Blakeley, deceased, of Pine Grove, Calif. who, on November 13, 1901, made H. E. No. 7180, for lot 3, Section 28 and N½ of N½, Section 33, Township 7 N., Range 12 E., Mount Diablo Meridian, has filed notice of intention to make final five year proof, to establish claim to the land above described, before the U. S. commission for Amador county, at his office in Jackson, Calif., on the 7th day of December, 1908.

Claimant names as witnesses:  
Joseph Garabaldi, of Volcano, Cal.,  
E. A. Trask, John J. Cranmer and  
Frank Walker, of Pine Grove, Calif.

JOHN P. ARMSTRONG,  
Register.

## Board of Supervisors.

At the meeting of the board of supervisors held last week, besides canvassing the election returns and declaring the result, claims for services were allowed to the following named persons, \$6 being allowed in each case, except where other figures are given, which includes the delivery of returns in addition to services as election officer:

**BANKING BY MAIL**

The Stockton Savings and Loan Society with resources of \$1,000,000.00 offers every facility for doing a banking business by mail. Checks taken payable in any part of the United States. Our system of banking by mail practically brings this great bank to your door. To open an account with us, place the amount you wish to start within an envelope addressed to us and by return mail you will receive a bank book showing the amount of your deposit. The United States mails are safe and no one ever lost a dollar in this way. We solicit the accounts of farmers, business men and others and assure them courteous and liberal treatment.

## DON'T HIDE YOUR MONEY

The man who hides his money because he assumes to be afraid of banks forgets that it was the bank that perhaps made the prosperity possible which gave him his money making opportunities. Without the bank there would be no large commercial or business enterprises possible, salaries and wages would be low, and money making impossible. It is the bank in the exercise of its function in gathering together the funds of a community and putting them into active use that has brought prosperity.

To hide money is the hinder and hurt prosperity by restricting the circulation of money.

Bring your money to the bank.

### LOCAL NEWS

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 441; residence, black 394; Jackson.

The long continued dry spell is making the outlook rather blue for the cattle men. There is no dry feed on the ranches worth speaking of, and all the cattle men are short on hay. They cannot dispose of their herds to advantage. The only thing left is to take them to places where pasture is good. Froelich's band, we learn, is to be driven to one of the islands on the Sacramento river where feed is plentiful, as is most always the case along the river bottoms. This is expensive, however, and at \$1 to \$1.50 per head, soon runs away with the profits in stock raising.

Rufus McCoy, who has been around Volcano and Pine Grove for a number of years past, and who was deputy sheriff under J. Vogan some thirty years back, came down from the mountains early this week, to seek medical advice. He is suffering from a severe cold, which has settled on his chest, and has pulled him down very much.

After this week fresh fish will be received at Lemn's fish market, near the north bridge. Except those living in the immediate vicinity of the market, parties will have to call at the shop for fish, as Mr. Lemn has no way of delivering orders, except on foot, and he finds it impossible to do this all over town.

Mrs. Matt Williams left Saturday morning for San Francisco, on a two week's visit to relatives in that city.

Miss Albina Paramo left Sunday for San Francisco, after a week's visit at her home.

Miss Lydia Podesta returned Saturday evening from San Francisco, where she has been visiting relatives for several months.

Henry Weil came up from San Francisco Saturday, to look after his property interests here. He has been away six months.

S. D. N. Spagnoli left Saturday for a short visit to San Francisco.

LOST—A bay steer, 3 years old, branded on right hip G. R., ends of both ears cut off, weighs about 600 pounds. Finder will please notify John Kaggio, Kennedy boarding house, Kennedy mine, Jackson. x

Chas. A. Williams who was several years ago in Caminetti's law office, and more recently bookkeeper at the Keystone mine, until that mine closed down two months ago, came up from San Francisco Sunday evening. Since the closing of the Keystone he has been in the city looking for employment, but things are so quiet there and so many hunting jobs, that he could find nothing suitable, so he returned to Amador, and will go to work at one of the mines if nothing else offers.

Investors—Write at once about first mortgage railway bonds netting 8 per cent. Swasey & Co. Brokers, Merchants Exchange Bldg., San Francisco. Oct. 9 at

### Change of Mail and Stage Time.

Commencing last Tuesday, a new schedule has been put in operation on the line between Ione and Galt, necessitating a rearrangement of the stage time between Jackson and Martell, and a corresponding change on the I. and E. road. The mixed train—passenger and freight—has been discontinued on the Amador Branch line. The train leaving Ione for Galt in the morning is now exclusively for passenger traffic. This was tried once before and while it gave general satisfaction to the traveling public, for some reason it was discontinued after a brief experience. But, at the earnest solicitation of a number of influential citizens, the arrangement has again been inaugurated, and this time with a promise of permanency. The stage leaves Jackson for Martells at 10 minutes past eight, instead of 20 minutes to eight as heretofore, and arrives in the evening at 5 o'clock, instead of half past five. After the arrival of the up train from Galt to Ione with passengers in the afternoon, the freight train will make the round trip to Galt and return, this making Ione the stopping place at night as heretofore. This seems to be satisfactory all around. It certainly is a benefit to the residents of the mineral belt as passengers leave half an hour later, and get in from outside points half an hour earlier.

### How to Cure a Cold

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotics and may be given as confidently to a baby as to an adult. For sale by Jackson Drug Store, Spagnoli, prop.

### Unclaimed Letters.

N. Bahulich, Wm. Coleman, Miss Dolores Cruz, J. V. Devencenzo, Mrs. Emma Harris, James Hosking, C. Lorenzelli, Giovanni Lucio, Vinco Matulich, Albert T. Seymour, Mr. Schuler, Mrs. C. E. Stewart, Yocne Saratraz, Mrs. Richard Tembath, Peter Vlatkovich, Miss Ethel Warburton.

### Colds and Croup in Children

"My little girl is subject to cold," says Mrs. Wm. H. Serig, No. 41 Fifth street, Wheeling, W. Va. "Last winter she had a severe spell and a terrible cough, but I cured her with Chamberlain's Cough Remedy without the aid of a doctor, and my little boy has been prevented many times from having the croup by the timely use of this syrup. This remedy is for sale by Jackson Drug Store, Spagnoli, prop."

Judge Rust is still confined to the house by illness, although steadily improving. He was able to appear at the teachers' institute Tuesday evening in Odd Fellows hall, and made a brief address as programmed. He has not been able to hold court for the past two weeks.

### Brief, but Crushing.

He was very badly in love indeed and had sat up till the "wee sma' hours" composing the following lines: Beautiful one, with eyes so blue, Oh, how my fond heart sighs for you! Sweet spirit, listen to me now: Hear once again my ardent vow. He turned out about three yards of this soul inspiring verse and sent it to the object of his adoration with a request that she would express an opinion on its merits. This is what he received:

"Dear Mr. Hopkins," she wrote, "I do not like to hurt your feelings, but if you will read the initial letters of your first four lines downward I may say that they express my sentiments exactly."

### Might Be Worse.

An old woman was brought into a London hospital suffering from a poisoned leg. The house surgeon made a hurried examination. He was a man of blunt speech. "It will have to come off," he told her.

"What, not all of it?" "The whole of it, I'm sorry to say," growled the house surgeon.

"Nothing else for it?" "No other chance for you whatever," explained the house surgeon.

"Ah, well, thank Gawd it's not my 'ead."

### Frost on the Moon.

Changes on the moon's surface, especially at the point known as the crater Linnaeus, are recognized by some astronomers. It is concluded that the diminution of a white patch must be a melting of hoarfrost at sunrise and that the deposition and melting frost must be taking place in other parts of the moon.—London Chronicle.

### CASTORIA.

The Kind You Have Always Bought  
Sole Signature of *Castoria*

### Smallpox Case

A very light case of smallpox was discovered in this city on Saturday last. The victim is an Italian named Vic Pippia. He had been boarding at the hotel on Broadway, and had been going to work at one of the mines here right along, feeling little inconvenience. A few marks were on his face but not sufficient to excite alarm. At last doubts as to the character of the complaint, and the nature of the eruptions began to be circulated. As a result a doctors' consultation and examination was held on Saturday evening. The three doctors were in attendance, and the disease was pronounced smallpox. The pustules were numerous about his body. He was told not to go to work the following day. Instead of heeding this advice, he showed up at the mine the next morning, fearing as he claimed that he would lose his job. Marshal Huberty upon learning that he had gone to work repaired to the mine and had him brought from the underground works, and removed to Jackson. He is placed in a separate cabin on the creek behind the hotel and is guarded by Charles Clark, a strict quarantine being maintained. Like most of the cases which have occurred in this county during the past ten years, the disease is of the mildest character. The patient is up and around the premises, suffers scarcely at all, and feels as well and able to do a day's work as he ever did. No danger of the spread of the malady is apprehended.

### Chris Koyovich Property Sold

The boarding house and appurtenances of Chris Koyovich, situated midway between Jackson and Jackson Gate, was sold week before last, under bankruptcy proceedings, to a man named Bakovich. It is understood that the property was purchased for the Slavonian Benevolent Society. The price that it was sold for was \$2500, which is regarded as a very fair price, and considerably more than it was generally thought the premises would bring. The personal property was included in this price. The sale is subject to confirmation by the referee in insolvency, Chas. A. Bliss, of Sacramento.

### Defense is Expensive

As figured by London Answers, the annual cost of "running" a battleship of the Dreadnaught class is \$500,000 a year, of which \$200,000 goes to officers for salaries and wages. Ammunition in time of peace costs \$60,000 a year the expense of necessary target practice being very heavy. Victualing, fuel, etc., make up the balance. Estimating the original cost of these ships at \$7,000,000, and allowing a life of twenty years, the cost from the first draft plans to the sale of the vessel as junk reaches a total of \$17,500,000.

### A Burdened People

The Japanese people, according to a Tokio newspaper, pay the heaviest tax per person in the world. The Tokio paper asserts that heads of families are taxed one-fifth of their income. By way of comparison, it may be said that an American pays out in taxes about one-thirty-third of his income. In addition, the American will earn five times as much as the Japanese.

DeWitt's Kidney and Bladder Pills are unequaled in cases of weak back, back ache, inflammation of the bladder, rheumatic pains, and all urinary disorders. They are antiseptic and act promptly. Every case of kidney or bladder trouble should be attended to at once, and the aches in the back, rheumatic pains, urinary disorders, etc., are warning signs. Don't delay, for delays are dangerous. Get DeWitt's Kidney and Bladder Pills. Regular size 50c. Sold by City Pharmacy, P. W. Rubser, Prop.

Sales Agents Wanted.—\$36.00 per week or 400 per cent. profit. All samples, stationery, and art catalogue free. We want one permanent agent in this locality for the largest picture and frame house in America. Experience unnecessary. We instruct you how to sell our goods and furnish the capital. If you want a permanent, honorable and profitable position, write us today for particulars, catalogue and samples. FRANK W. WILLIAMS COMPANY, 2114 W. Taylor St., Chicago, Ill.

### New Time Table.

The time of arrival and departure of stages and train, as per revised schedule is as follows:

Stage leaves Jackson 8:10 a. m.; train departs from Martells 8:40; leaves Ione 9:50, arrives in Galt 11:02. Stage leaves Amador 7:00 a. m. Sutter Creek 7:50 a. m. Up train leaves Galt 2:10 p. m.; leaves Ione 3:35 p. m., arrives at Martells 4:30; stage arrives in Jackson 5 p. m.

A very successful teachers' institute of three days continuance was brought to a close yesterday afternoon. The full proceedings will be published next week.

## STILL IN THE FRONT

For full lines of clothing, shoes, drygoods, gloves, silks, laces, embroideries, ladies' waists and ties, and corsets, all of which will be sold to the people of Amador county for less than any house in the state, taking out the expenses and express charges.

Statement of Democratic County Central Committee—Wm. M. Peury jr., as treasurer of the democratic party files his statement of receipts

and disbursements with vouchers as follows: receipts, \$145; disbursement, \$237.40.

The republican county central committee reports receipts from county convention and collection from citizens of Jackson amounting to \$137. Disbursements, \$94.95, leaving a balance to the credit of the committee of \$42.05.

R. C. Rust, candidate for superior judge, files a statement showing his total campaign expenses as \$10, being an assessment of \$5 to both democratic and republican conventions.

General Release—Lahrovich to Turcinovich; consideration \$250.

Proof of Labor—F. M. Farwell on Dandy, Kentuck, Jumbo and Dan Duty at Butte City, all claimed by Jose Gulch M. Co.

Builder's Contract—S. F. Dal Porto agrees with Virginia Ratto that the latter erect one story dwelling house on lot 52 of Hamilton sub-division, Jackson, to be finished on or before February 1, 1909, for \$1350; specifications attached to said contract.

Argreement—A. Ball agrees to buy of C. J. Votaw, 160 acres in 30-8-11, for \$3000.

Release of Attachment—Lawton vs. Berry.

Satisfaction of Mortgage—Votaw to Torre.

### A Peculiar Wrench

of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, burns and scalds Ballard's Snow Liniment is the best thing to use. Relieves the pain instantly, reduces swelling, is a perfect antiseptic and heals rapidly. Price 25c, 50c and \$1.00. Sold by Rubser's City Pharmacy.

## My Hair is Extra Long

Feed your hair; nourish it; give it something to live on. Then it will stop falling, and will grow long and heavy. Ayer's Hair Vigor is the only genuine hair-food you can buy. It gives new life to the hair-bulbs. You save what hair you have, and get more, too. And it keeps the scalp clean and healthy.

The best kind of a testimonial—

## \$50,000 BANKRUPT SALE

Of the United Harness Co., at STOCKTON

EVERYTHING MUST GO. NOTHING RESERVED. 411 E. Weber Ave.

Sale Begins Nov. 5th, 1908, at 9 a. m. no6 1m

From Our Exchanges.

John Strohm and H. C. Garbarini, drove out to the crossing of Jackson Creek, between the Meyers ranch and the Robert Ellis ranch, last Sunday to try and locate a site for the steel bridge that is to be erected at the crossing.—Echo.

Married in Stockton, Nov. 6, 1908, James W. Green aged 22, and Miss Elsie Westfall aged 18, both of Stockton. Mr. Green is Wells Fargo & Co.'s messenger between Stockton and Lathrop. Miss Westfall is an lone girl, having been born and reared at lone, only recently moving to Stockton, where the newly married couple will reside.—Echo.

Mr and Mrs H W Thayer, of Lancha Plana, left last week for Los Angeles, were Mr Thayer will remain and look after the business interests. Mrs Thayer will continue her journey into Texas, where she will spend the winter with friends and relatives.—Echo.

Nikola Loncar, of Stent, whose application for citizenship came before superior Judge G. W. Nicol, has been denied naturalization papers. Among the reasons for Loncar's rejection, was that he lacked a proper understanding of the government of the United States, that he had not conducted himself as a man of good moral character since his residence in Tuolumne county and that for the past three years he had conducted a saloon at Quartz Mountain in which prostitution had been carried on.—Sierra Times.

Major Otto L. Sues of San Francisco, came up from the bay city last evening an returned this morning. He is a special agent of the government, and came here to take a couple of depositions regarding alleged irregularities in regard to pension matters. The depositions were taken in this city last night and will be forwarded to Washington from San Francisco. As the case is simply in a state of investigation on the part of government officials no details of the charges filed can be given at this time.—Nugget.

During the noon hour today Rev. E. J. Bradner married George Walter Wells of Clarksville and Emma Martha Walker of May postoffice. The couple will return to Clarksville where they will make their home.—Nugget.

H. R. Greve sold his fine trotting mare this week to a party in Jackson for \$175.—Citizen.

Last Tuesday sheriff Jones arrested Frank Suplo in Angels on suspicion of being connected with Frick in the attempt to rob the plates at the Gwin mine recently. Suplo was brought to San Andreas and lodged in jail. He stoutly denies the robbery or any connection with Frick, but his stories do not agree with each other or with many known facts in the case. It is claimed that there is strong evidence that he is the guilty party.—Prospect.

Miss Irene Hayes, formerly postmaster at Wallace, was killed at Red Bluff on Tuesday, where she was on a visit. She and four other persons were riding in an automobile and were run down by a train. Four out of the party of five were killed. Miss Hayes was a niece of Mrs E. A. Hill of Wallace.—Citizen.

S. G. Beach's box factory is running full time with a full crew again, and is turning out orange box, banana crate and oil box shooks in carload orders. The factory had closed down for the season about ten days ago, but so many orders came in last week that it became necessary to start up again.—Nugget.

Robert Noble of Georgetown, one of the pioneers of El Dorado county, walked over to the county seat yesterday to pay his taxes and transact a little business. Mr Noble is 88 years of age, but he made the eighteen-mile walk with greater ease and less fatigue than a majority of our high school athletes could have done. He crossed the plains in 1854 with the father of Oscar Reeg of this city, and delights in recounting reminiscences of those early days. He returned home this afternoon on the Georgetown stage.—Nugget.

Marvelous Wood Saw

It makes the man who is interested in the salvation of the forests of the world gasp for breath when he enters a shop in Paris where the paving blocks for the city's streets are being made. Paris is a very large city, and it takes a very great many blocks to keep the streets in good condition. A recently invented and established sawing machine turns out as many as 240,000 blocks a day. An endless chain receives the planks, which are already cut to a certain required length and thickness, and carries them on to a system of seventeen saws, where they are quickly cut up into blocks of the right size for paving and are then turned out at the other end of the monster machine.

"I have been somewhat costive, but Doan's Regulators gave just the result desired. They act mildly and regulate the bowels perfectly."—George B. Krause, 306 Walnut Ave., Altoona, Pa.

TO STUDY  
TIMBER CONSERVATION.

The future development of the lumber industry in this country lies in the direction of a closer utilization of forest products. Both forests and practical lumbermen now agree on this point.

Just what can be done in this field is well illustrated in the operations at the mill of the Great Southern Lumber Company, which has just reopened its plant at Bogalusa, Louisiana, in response to the increased demand for lumber after the recent slump in business. This is perhaps the largest sawmill in the United States, if not in the world, and is capable of turning out the enormous amount of 6,000,000 feet of sawn lumber board measure per day. A reader can get a fair idea of this quantity of lumber when he is told that its output is enough to build a little town of 40 houses, along with a good-sized church and a school house every day.

This company was quick to grasp the significance of the rapid depletion of timber resources. Last year it began a co-operative investigation in wood utilization with the United States forest service and arrangements have just been completed for a renewal of the experiments. The work will be along practical lines and will be aimed to secure a closer utilization of the products of the southern lumber mills and at the same time produce a margin of profit in excess of that obtained by the methods which are now practiced.

The field for work along this line is broad. It is well known that the superior grades of lumber are obtained from old mature trees, provided they are not weakened by decay or other influences. In other words, a thousand feet board measure of lumber, sawed from a tree two feet in diameter, costs less and is worth more than a thousand feet sawed from a tree only eight inches in diameter. Moreover, timber cut from young trees usually contains a large amount of sapwood. It ties, poles, etc., are cut from such material, they will decay far more rapidly than if cut from heartwood. It is not good business policy, however, in a great many cases to saw the most valuable timber into commodities which are relatively low in cost, such as ties and poles. It is the intention therefore, of the company to find out just what size and classes of timber can be best utilized for the cheaper commodities when given a preservative treatment.

To this end a careful study will be made to ascertain the amount and value of the products sawed from trees of different sizes and just how each can be best utilized so as to secure greatest economy and profit. For example, can a tree eight inches in diameter be best utilized for ties or for flooring, and how will the profits compare if treated with those sold untreated? It seems reasonable to suppose that the profits derived from the sale of treated timber will exceed those from untreated timber.

Moreover, the greater use of chemically preserved wood will undoubtedly result in that wood giving a greater life in service. Hence, the amount of timber cut annually in the United States, simply to replace that which has decayed, will be materially decreased, and a further conservation of forest resources will result. Recent estimates by the forest service place this reduction at 10 per cent of the total timber cut. The practical benefits of these experiments and of the investigations for the utilization of sawmill waste are at once apparent.

DOING THEIR DUTY

Scores of Jackson Readers are Learning the Duty of the Kidneys

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick.

Backache and many kidney ills follow; urinary trouble, diabetes.

Doan's Kidney Pills cure them all. Jas. Dixon, living at Coloma street, Placerville, Cal, says: "I can recommend Doan's Kidney Pills and think them a very good remedy for kidney trouble. The first time I used them I was suffering very severely from pains in my back so that I was hardly able to stoop or straighten. The trouble was always as severe during the night as in the day, and my rest was greatly disturbed. My kidneys were very irregular in action and the secretions contained a sediment. I tried a great many remedies as well as plasters and liniments but nothing relieved the trouble until I began using Doan's Kidney Pills. They relieved me of all the trouble and I think them a fine remedy for the kidneys." Plenty more proof like this from Jackson people, call at The City Pharmacy and ask what customers report.

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Receipt books, location blanks, deeds mortgages, promissory notes, etc. for sale; also mining signals on cloth, graduation diplomas, at the Ledger office

Pioneer flour is the best; have no other.

Brevities

THE HALL OF FAME.

Charles G. Gouid, librarian at McGill university library, Montreal, has been elected president of the American Library association.

Senator Samuel H. Piles of Washington state, fifty years of age, started life in a logging camp and is now one of the wealthy men of the Pacific coast.

The oldest couple in Franklin, Me., are Mr. and Mrs. W. H. Card, aged eighty-two and seventy-eight respectively. They recently celebrated the sixty-first anniversary of their marriage.

R. S. Dobbs of Great Barrington, Mass., has a watch the case of which he says is more than 150 years old and handmade. It is of such soft gold that the least pressure upon it will cause an indentation.

Miss Sara C. Murray, a graduate of Radcliffe, has received the degree of Ph. D., magna cum laude, from Munich university, Germany. She is only twenty-three years old and is studying in Germany with the intention of teaching when she returns to this country.

Nine years ago John C. Meyers swam from Alton to St. Louis, twenty-six miles, in 7 hours. Recently Miss Lottie Mayer did it in 5 hours and 18 minutes. Practically throughout the remarkable trip Miss Mayer swam overhand. Occasionally she shifted to the side stroke for variation. At no time did she float on her back.

Miss Gertrude Holland Wren has received the Pereira medal from the Pharmaceutical Society of England. The medal is looked upon as the blue ribbon of pharmacy and has never before been won by a woman. Miss Wren also won the silver medal for practical chemistry and was bracketed first for the silver medal in chemistry and physics.

For the purpose of studying again the choosing of a president and the methods employed to win votes in a national campaign, Moses I. Ostrogorski, the distinguished Russian savant and author of "Democracy and the Organization of Political Parties," has come to the United States and will remain in the country until next November's election.

Plays and Players.

A comedy playlet entitled "The Money Lender" will soon be produced by Nat S. Jerome.

It is announced that next season Dorothy Donnelly will star under the management of Henry B. Harris in a new play by Charles Klein.

James Forbes, the author of "The Chorus Lady," Agnes and Egerton Castle and Martha Morton have contracted to write plays for Henry B. Harris.

"Pierre of the Plains," a dramatization of Gilbert Parker's play, "Pierre and His People," will be the medium in which Edgar Selwyn will appear next season.

Mr. Alfred Majilton, a member of the famous English theatrical family, has been engaged by Henry W. Savage to play the role of Baron Popoff in "The Merry Widow."

Ingratitude.

Revenge for past favors. Forgetfulness of the heart. Repudiating the soul's debts of honor.

Stabbing the hand that has fed us. Treason usurping the place of thankfulness.

Inability to forgive those who have done us a kindness.

Some one's confession that we are no longer necessary to him.

Accepting friendship's dividends, but refusing to pay its assessments.

The cowardice of the deserter in the hour of a benefactor's need.

The devil's highway from thoughtless thanklessness to treachery.—William George Jordan in New York Tribune.

Scraps of Science.

A new machine to dispose of the ashes which accumulate in the fire rooms of vessels expels them through the keel so forcibly that they cannot scour the hull or come into contact with the propeller tubes.

Visual proof that the earth moves is furnished at Columbia university, New York, where a pendulum ninety-one feet long, suspended from the dome of a chapel, swings several inches out of the perpendicular.

By the use of an automatic heel which will maintain a uniform tension, yet permit its length to vary as the motion of a ship demands, a life saving cableway and breeches buoy has been made practicable for use on vessels.

The New Testament.

Number of books, 27.

Number of chapters, 260.

Number of verses, 7,959.

Number of words, 181,258.

Number of letters, 838,839.

The middle is the second epistle to the Thessalonians.

The middle verse is the seventeenth verse of the eighteenth of Acts.

The shortest verse is the thirty-fifth verse of the twelfth of St. John.

The middle verse in the whole Bible is the eighth verse of the One Hundred and Eighteenth Psalm.

SEASONABLE ADMONITION.

Here is advice that none should fail To duly note:  
When going for a summer sail,  
Lest friends and relatives should wail,  
Don't rock the boat!

And in life's usual business  
If you would float  
Along the current of success  
Don't fret and fume in nervous stress;  
Don't rock the boat!

Not only men of humble fate  
Who live remote  
Should heed this warning. Oh, ye great,  
Who seek to run the ship of state,  
Don't rock the boat!

—Washington Star.

One of Life's Ironies.

This is the girl who used to say she would never marry a man unless she could look up to him.—Philadelphia Press.

When Riley and Carman Met.

James Whitcomb Riley and Bliss Carman, though comrades of long standing in art, did not meet till comparatively recently. It was in Washington, and the Canadian poet, whose head is fully six feet four inches above ground, was walking down Pennsylvania avenue with a friend.

Observing Riley approach and knowing that the two poets had never met, the Washingtonian took occasion to introduce them.

Struggling with suppressed emotion, the laureate of childhood dropped his eyes to the pavement, gradually permitted his glance to travel upward as though analyzing a new species of skyscraper and with an expression of inimitable drollery ejaculated: "Well, by jiminy! Yeour parents must hev trained yeon on a trellis."—Success Magazine.

On the Way Home.

A party of Scotsmen had been having a little celebration in a Canadian township, and unsteady were the steps on the home going in the morning. One fell by the wayside and called for help from another wayfarer. The would be good Samaritan tried to steady himself as he looked down upon the fallen one and then settled matters by saying, "I canna help ye up, but I'll lie doon aside ye."

A Chump.

Tess—Mr. Dumsley's just the meanest man. He told me last evening he'd teach me how to whistle if I'd pucker up my lips—

Jess—Oh, that old scheme! Then he kissed you, eh?

Tess—No; the stupid thing! He didn't kiss me at all.—Minneapolis Journal.

More Important.

Two village worthies were discussing a mooted point in grammar as to whether a hen "sits" or "sets" when she takes to her nest.

"Seems to me it's a heap more important," interrupted a bystanding farmer, "whether she 'lays' or 'lies' when she cackles."—Harper's Weekly.

Light.

"You used to say," she bitterly complained, "that I was the light of your existence."

"I know it," he replied, with almost brutal frankness, "but that was before I had to pay for the gas you consume by sitting up till midnight reading fool love stories."—Chicago Times-Herald.

A Cultured Clerk.

Mrs. Schoppen—What's the price of this silk?

The Sales Gentleman—The price is 98 cents, madam, which you must admit is quite decollete.

Mrs. Schoppen—Decollete? The Sales Gentleman—Yes, madam. Cut low.—Philadelphia Press.

A Mean Man.

"That man Deadbete is the meanest fellow I know."

"Why?"

"Today he paid me back a loan I've been trying to get for two years, and he had the nerve to ask me how much I proposed to throw off for cash."—Ohio State Journal.

Over the Back Fence.

First Woman—You've got to retract what you said about me.

Second Woman—I won't. I never take anything back.

First Woman—Indeed you don't, but you'll borrow everything your neighbors have if you get a chance.—Detroit Free Press.

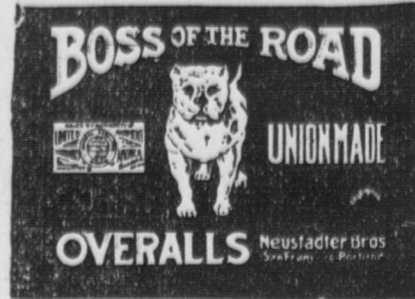

Income and Outgo.

"Gramma, pa costs me a n'awful lot."

"How, sonny?"

"Why, gramma, when I'm good all day he gives me a penny, an' when I'm bad I have to give him a penny."—Chicago Record-Herald.

SCIENTIFIC  
MISCELLANY

Reported weekly for the Ledger.

Warm Bath Stimulation of Plants—  
Automatic Gates for Crossings—Safe  
Telephoning Under Power Wires—  
Science in an Old Notion—The Gas-  
Mantle Problem—Anti-Cancer In-  
oculation—Skin Disease from Work  
—Iron Without Blast.

The warm bath is a new forcing process by which German florists and horticulturists are seeking flowers and fruits at unnatural seasons. As described by Hans Molisch, it consists in soaking cut branches or rooted plants in water at 68 degrees to more than 100 degrees Fahr. for nine to twelve hours, and then cultivating in the usual way. The method seems to be especially suitable to the hazel, lilac, dogwood, gooseberry, black alder, larch, horse chestnut, willow, and other trees and shrubs. The top of a rooted lilac was immersed twelve hours at 88 to 98 degrees, then placed in a moderately warm forcing house, and in forty days was in full leaf and flower, while in the same house the buds of a lilac that had not had the warm bath were just beginning to open. Other results have been even more striking. The applications vary in temperature for different plants, while some plants are best treated just after the leaves fall in autumn and others a little later, but the warm bath near the end of the winter rest may even retard growth.

An automatic gate is being tested on a Swiss electric road. As a car approaches the grade crossing, the trolley bow makes contact with a wire running parallel to the main trolley line, and thus energizes a motor that in twenty seconds, lowers a gate across the highway on each side of the railroad, and at the same time an electric bell is rung and two lamps are lighted. A counterweight raises the gates after the car has passed.

A German portable telephone is mounted in a rain-proof case, provided with a folding tripod of light steel tubes, which make ground connection, while a conductor in a long ash pole in six sections is used to make connection with the overhead wire. Safety is ensured, even when the line poles carry 10,000-volt wires.

The popular idea that the burning of sugar has an important effect in disinfecting sick rooms has been shown by Prof. Trilbert of the Pasteur Institute at Paris, to have a scientific basis, although physicians have hitherto regarded the practice as a perfectly useless but harmless superstition. He has demonstrated that a product of the combustion is formic acetylene-hydrogen, one of the most powerful of gaseous antiseptics. He burned about 80 grains of sugar in a bell-glass holding ten quarts, and bacilli of typhus, tuberculosis, cholera, smallpox, etc., exposed in open tubes in the vapor produced were all dead within half an hour. In a closed vessel the offensive odor of rotten eggs or putrid meat was immediately destroyed by burning a little sugar.

The incandescent gas mantle has been a great puzzle to physicists. In the experiments of fifteen or twenty years ago, it appeared that pure thoria would give only one candle power of light per cubic foot of gas, but that the presence of one per cent of ceria increased this to 20 or 25 candle power while with ten per cent of ceria in the mantle only three candle power would be realized. Numerous theories have been suggested to account for these strange facts. The truth has become known at last, states Prof. Vivian B. Lewis, and the explanation is that ceria has an enormous power of heat-radiation and thoria very little, and if ceria is raised to the proper temperature of 1500 degrees or 1600 degrees C. the maximum lighting effect is obtained. This temperature cannot be reached if the ceria is much over one per cent.

Vaccination with a serum is pronounced by Dr. Doyen, a French experimenter, to be the only means yet available for preventing cancer. An anti-infectious condition is established by progressive inoculations with the toxins and dead cells of the cancer organism (Micrococcus neoformans), and this stimulates the phagocytes, or white blood corpuscles, to resist and absorb the live cells of malignant tissue. Cures are claimed in cases really considered desperate.

Occupation dermatitis, or skin inflammation attending certain kinds of work, has been investigated at the Royal Infirmary, Edinburgh, by Dr. F. Gardiner, and in the eighteen months ending with June, 1908, not less than 102 cases in males came under observation and 85 in females. The affection seems to be most common in early life and in warm weather. Laborers, miners, painters,

joiners and rubber workers were most affected among males, and housewives, laundresses and rubber workers among females. It was not always easy to trace the direct cause. So far as could be determined, however, the irritation was due to soap and washing materials, moisture and mud, hot substances, varnishes and paints, alkalies and acids, naphtha, sugar, flour and paraffin, in this order of frequency. Ointments well rubbed in, had increased the trouble in many cases. The arms, hands and face are most often affected, but in 11 cases the whole body was irritated. As a rule, there was no general ill health, though such disturbances as anaemia, dyspepsia, influenza and rheumatism were noted in 25 cases.

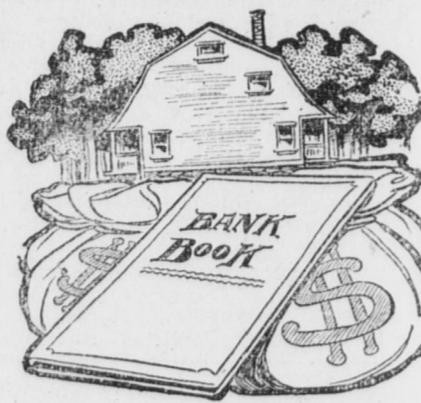

For his iron reduction without blast furnace or fusion, J. T. Jones, of Iron Mountain, Mich., claims especial economy and effectiveness, with low grade ores. A slightly inclined cylinder 8 feet in diameter and 120 feet long is rotated on bearing wheels, and the ore fed in at the upper end slowly moves to the lower end, where gas from a special producer gives a powerful reducing flame, with temperature of 1470 degrees Fahr., in which all oxides are reduced. The hot gas emerges from the upper end of the cylinder as carbon dioxide at 400 degrees. It is stated that 400 pounds of fuel feed to the producer does the work of 2000 pounds of coke in the blast furnace, and yields a ton of good iron.

Dyspepsia is our national ailment. Burdock Blood Bitter is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

## OVER THE FENCE.

How Women Sometimes Get Acquainted With Each Other.

The woman in 2016 had just moved in, and she was very anxious to know something about her neighbors. The woman in 2018 was curious about the newcomer. A strange coincidence brought them to the dividing fence at the same hour. No. 2016 rolled a keg up to her side of the fence. No. 2018 turned up a big tub. Simultaneously they mounted their respective elevations. Their heads met, and there were exclamations of guilty surprise.

"What were you doing 'rubbering' in my yard?" demanded 2016.

"Now, you've got a nerve!" retorted 2018. "It was you who was doing the 'rubbering.'"

"I was just waiting to catch you, Mrs. Who-ever-you-are."

"Well, one can't be too careful about strangers."

"Is that so? Well, I'll bet your name isn't in the society blue book. Your family wear red flannels."

"Pooh! You do your own washing."

There was a long lull in which the belligerents exchanged glare daggers. Then 2016 melted.

"I didn't just mean to hurt your feelings," she said, almost smiling.

"Nor I," hastened 2018.

"There isn't a bit of sense in neighbors always being at odds."

"It was all my fault, and I am going to apologize right away."

"Indeed, I'll not let you, then. I am going to shoulder all the blame myself. Nice way for me to welcome a new neighbor!"

"That is an awful cute pigeon house on the side of your wall."

"Oh, it's just some freak of John's saw and hammer. But that is a fine sifter you have."

"Well, it is one of the modern kind—no dust or ashes."

"I have so many cinders. It would be a great thing for me."

"Then you shall have it any time you ask. I am going to send you over a sample of my waffles after awhile."

"Yes, and I am going to hand a saucer of my prunes over the fence."

"You are too kind. But I want to ask you to come over tonight. John is going to give selections on his phonograph."

"I'll try, but not unless you promise to come over Sunday. Goodby. I'll rap when the prunes are done."—Chicago News.

## A Believer.

"Do you believe in telepathy?" asked the mystical person.

"What do you mean by telepathy?" asked Dustin Stax.

"Thought transfer—the faculty that enables one person to know what another person is thinking about."

"Oh, yes! There's my old friend Mr. Skinbottle. I know what he's thinking about this very minute."

"What is it?"

"Money."—Washington Star.

## They Confused Him.

"The older I get the less reliance I place on my senses."

"And you used to be so positive. What's changed you?"

"I'm engaged to one of a pair of twin girls who look exactly alike."—Cleveland Plain Dealer.

## Needed Help.

Landlady—Will you have another help to the chicken, Mr. Blithers?

Mr. Blithers (star boarder)—Yes. Unless I get help, I'm afraid my jaws won't stand the strain. You see I never practiced mastication as a physical feat.—Ohio State Journal.

## Limit.

Mrs. Stubb—It states in this magazine, John, that the shortest men on earth are the Lapianders.

Mr. Stubb—H'm! They couldn't be any shorter than an American man after his summer vacation.—Pittsburg Post.

## A Slight Difference.

Bertie—Aw, are you going to the cane rush?

Ragsy—Naw; dis is a can rush.

## Quite Enough of a Fracture.

Flushing—You were pretty badly cut up when you took that cropper at the chase. Any bones broken?

Elmhurst (gloomily)—Well, when the doctor got me patched up it broke a ten bone bill to settle with him!—Brooklyn Eagle.

## Mixed.

Nebb—Who is that ordinary looking woman with Mrs. Meek?

Nick—Mrs. Meek is the ordinary looking woman; that swell dressed creature with her is Mrs. Meek's hired girl.—Ohio State Journal.

ESTABLISHED 1855.

## LOCAL EDITORIAL COLUMN.

## THE CASE OF HAAS.

The Haas-Heney tragedy in San Francisco has brought into strong relief one of the glaring defects in our judicial system. The lengths to which lawyers are permitted to badger a witness or a juror under examination touching his qualifications to sit on a case, have been a crying shame. While no one will attempt to even palliate the crime of Haas in shooting down Heney, to any extent whatever, still the consensus of opinion will concede that Haas had been harshly dealt with. He had committed a crime—embezzlement—some twenty years ago, for which he suffered the penalty imposed, and was restored to all his civil rights. He had changed his name, became a man of family, in fact his offending was lost in the lapse of years. It was probably unknown to his family. It was no fault or seeking of his that he was called as a juror in the previous Ruef trial. He was not disqualified from sitting on the case by reason of his former conviction. He had tried to earn an honest living since. And yet under the protection of the court, and in the sacred name of justice, this slip from the straight path, committed in the dim past, was cruelly paraded before the world, not only to the disgrace of the man under examination, but also of the members of his family. He says he at once became a social outcast. His opportunity to earn a living fell to zero. Life was turned to bitterness again. Frenzied by this reopening of the matter, and the taunts of his associates, he fired the happily not fatal shot at Heney, keeping another in reserve for himself which effectually put an end to his troubles. This is the picture that Haas drew just before his suicide of the treatment he had been subjected to, apparently under the sanction of the law, and certainly under the sanction of the court. He was doubtless a weak-minded man, a victim of emotional insanity when he committed the act. But the story furnishes a sad commentary upon the conduct of criminal trials as conducted in our courts. Why should the whole life of an individual under examination as a juror be raked over from boyhood up. And why should one false step be hurled at a man with seeming delight in the halls of justice. There is no justice in such methods. There is not even common humanity therein. There is certainly urgent need of a change in the law to stop the harrowing of a witness in this manner. If the past record of a man on examination is permitted, there ought to be a limit—say five years—beyond which the law should call a halt.

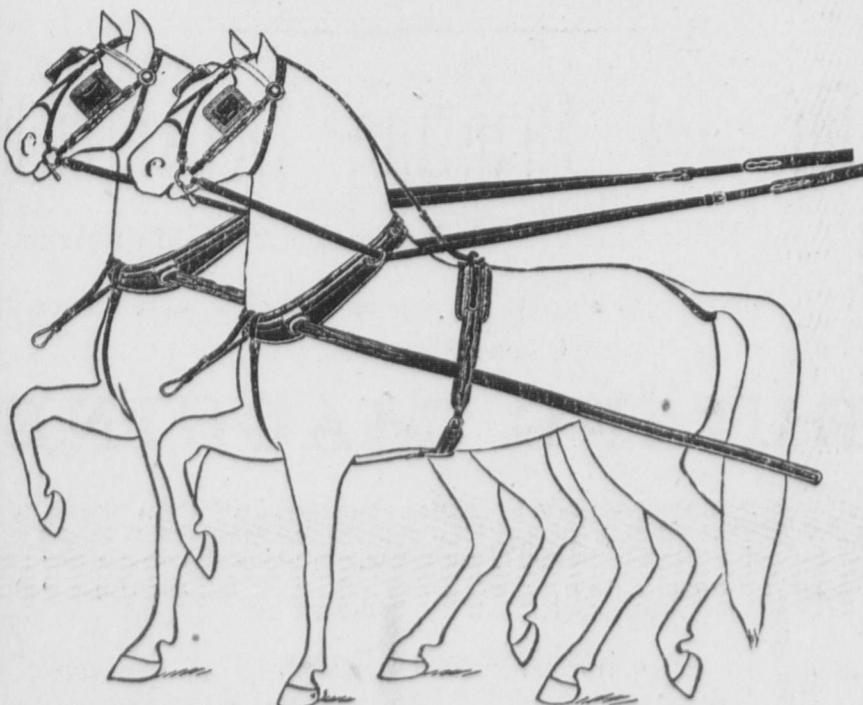

The constitutional amendment changing the system of taxation was defeated. It is proposed, however, to try it again, as those who have studied the matter thoroughly believe some method on the lines proposed would be a great improvement on the present system of raising revenue for the support of the government.

The San Francisco Seawall Act, also the India Basin Act were defeated by the heavy adverse vote cast in Los Angeles and the whole southern part of the state. Both propositions were for making improvements on the harbor front of San Francisco, and local jealousy on the part of the southern section came into play and defeated what were generally conceded the worthy measures.

## Humor and Philosophy

By DUNCAN M. SMITH

## WHEN HE LIVES.

The sweet vacation season  
When man from care is free  
To saunter back to nature  
And loaf or climb a tree.  
To scramble o'er the meadows  
Or clamber through the brakes  
And in secluded places  
To pause and sit on snakes.

Far from the hum of traffic,  
The city's noisy din,  
He sits in the surroundings  
And slowly takes them in.  
No need has he to worry  
Nor his engagements trim;  
There is no bill collector  
Who has a line on him.

The joy of being lazy,  
The fun of doing nil,  
The pleasure fine in loafing,  
All make with him a hit.  
He looks on work as something  
A sane man wouldn't do  
Unless he needed money  
And nothing had to chew.

Hurrah, then, for vacation,  
The only time when man  
Is living every minute  
On nature's home grown plan  
And there is only haunting  
This summons on his track,  
That he must soon cease living,  
Pack up and hurry back!

## They Believed It.

"A man should jealously guard the reputation of his word."

"That's so. I always think about that. This morning I went out of my way to get a reputation for truth telling."

"How did you work it?"  
"Promised three men all running for the same office that I would vote for them."

## Natural.

"I thought that you wanted that horse so very, very bad?"

"I did."  
"Well, what are you growling about now?"  
"I got it."

## Had Some Reason.

"There goes a man who thinks they can't run the business without him."  
"I have seen lots of egotists like that, but they usually discovered different after they were fired. What position does he hold—third assistant door-keeper or custodian of the penwipers?"  
"Not exactly. He is the proprietor."

## No Retaliation.

"New Jersey dog catcher bitten 3,000 times by dogs!"  
"Must be a meek and long suffering man."  
"Not necessarily."  
"Well, he didn't bite any of them back."

## Beat Out Some.

"Even laying brick is an art."  
"Is it?"  
"Yes; it is."  
"If you could see some things that are done in the name of art you would hesitate to speak so slightly of an honest calling."

## Sufficient Reason.

"He has invented an airship."  
"Will it fly?"  
"Of course it will."  
"Then why doesn't it?"  
"Because it is an airship."

## Truly.

"Ain't it awful, major?"  
"What?"  
"The slang some people use."

## PERT PARAGRAPHS.

An impetuous person needs to have a resigned disposition.

A fixed income is a very desirable thing unless the tendency to fluctuate is always in an upward direction.

The love of labor is the foundation of many a fortune, but not necessarily the laborers.

In order to be happy you need only to have a conscience to fit your creed.

You need to be a quick quitter when your wife finds you out.

Most laws are made to scare some people and be evaded by others.

Love of applause is the secret of many a near singer.

If the neighbors were what they ought to be, probably we would be different.

Too many church members are a lot more anxious about their souls' salvation than they are about the preacher's income.

Some people bear trials with great fortitude—other people's trials.

## Special Small Ads.

Advertisements under this head, not exceeding 5 lines, will be inserted at 50c per month, or 5 cents per line for less than one month.
